

WARNEMÜNDER WOCHE

press release 10<sup>th</sup> of July 2014

## All of the "Rund-Bornholmer" returned – kitesurfers are already testing the surf spot

### The 6<sup>th</sup> sailing day of the 77<sup>th</sup> Warnemünder Woche

Once again there were waves of up to 2 meters height – consequently the 30 O-Jollyboats had to wait for their start until 2 pm. Donald Lippert, German Champion and leader in the O-jollyboat ranking list, came in fifth after two races and is one of the frontrunners. Ranked first is Jan Ten Hoeve from Plön. Christian Soyka, winner of the last three Gold Cups of the X-99 is placed second after 4 races. As of now Martin Christiansen from Kiel, who always came in second during those last 3 Gold Cups, is in the leading position. The very close scores of both teams is going to generate a lot of excitement during the remaining 7 races.

### Award Presentation Ceremony of the hanseboot Rund Bornholm with a star line-up

After all the boats of the hanseboot Rund Bornholm came back in one piece, the award presentation ceremony was held today. The sailing star Tim Kröger from Hamburg was also present at the ceremony and enhanced the event as a brand ambassador and test-sailor in the team of terrathree and adidas. Due to the huge amount of different ships that participated in the longest sea-regatta in the Baltic, several special awards were offered as a reward by the regatta-management:

A special victory was achieved by the "IMMAC One4All", navigated by Kai Marces. For the first time a yacht won the Warnemünde Cup, the 2 Up & Down and the hanseboot Rund Borholm all at once during the Warnemünder Woche.

Accordingly the "IMMAC One4All" also won the Warnemünder hanseboot offshore Cup (Warnemünder Woche Cup). In addition the "IMMAC One4All" also won the Kyria-award for the fastest yardstick-yacht according to computation as well as the Knurrhahn-award for the fastest yacht according to ORC-computation. The project manager Heiko Zimmermann was sailing on board the "Uijuijui" and had a special experience. "Along the way there was an impact and the boomkicker broke out of the holder on the mast. We kept on sailing only using the spinnaker and at the same time temporary attaching the boom." On account of the bad weather several yachts struggled, 10 of which quit early. The home comers needed between 31 and 60 hours.

**further special awards:**

The hanseboot award for the fastest sailed time of the year goes to the "OSPA", navigated by Martin Kringel. The special award for the fastest boat of the home harbour Rostock goes to the "OSPA" as well. The double-hand special award was won by the "H.E.A.T." navigated by Max Augustin. Simultaneously the "H.E.A.T." also won the special award of the youth teams for a crew that assembles at least 50 percent adolescent people. The "H.E.A.T." is a 6.50 meter long boat – consequently it is a special accomplishment to finish a regatta that is 270 sea miles long with only two people.

The fastest charter yacht, "Maximum", navigated by Jörg Bardeleben won the charter-special award. The special award for the oldest team, participating in the hanseboot Rund Bornholm, goes to the "Lucky Star" navigated by Walfried Luksch.

### Kitesurf-Trophy of the 77<sup>th</sup> WARNEMÜNDER WOCHE

Right on time for the Kitesurf-Trophy of the WARNEMÜNDER WOCHE beginning on Friday, the wind started rising up significantly. Until Sunday Warnemünde is one of three locations of the German Championship run, which started last week on the island of Sylt. The international group of participants of the still young, sailing event (official since 2008) includes sailors from Germany, Poland and Denmark. The majority of the kite surfer travel to the Baltic for this event, which has been part of the WARNEMÜNDER WOCHE four times now, from the south of Germany, explains organizer Rike Kuberg from Hamburg. Featuring Mario Rodwald (Rendsburg), two-time European Champion and eight-time German Champion and Florian Gruber (Garmisch-Partenkirchen), World Champion at Course Racing, the German kite-elite is also present in Warnemünde. The youngest starter is eleven-year old Jonas Ouahmid from Kempten (Allgau) who will be participating at the junior competition with his brother this weekend.

On the course, in ideal eyeshot from the beach in Warnemünde there will be exciting kite race events and freestyle kite events, where an expert jury will judge the best tricks of two participants in a direct face-off. At the kite races the fastest kitesurfer will be determined in a triangular race course. All of the races can be watched from the beach and the athletes can be welcomed at the Sport & Beach Arena.
